Lake Navigator Upgrade

Due to a system upgrade, the online mapping application (Lake Navigator) where users can search parcels, view aerial photography, create printable maps, etc. will be unavailable beginning 4:30 pm August 30, 2013 through September 2, 2013. We expect that Lake Navigator 1.0 and 2.0 will be fully functional again beginning 8:00 am September 3, 2013.

Additionally Lake Navigator 1.0 will not be available after September 30, 2013.

The Lake County Geographic Information System (GIS) Department is conducting training for Lake Navigator 2.0 on Thursdays from 10:00 am to 10:45 in the Lake County GIS Department located in the basement of the Lake County Administration Building, 105 Main Street, Painesville, Ohio 44077.
